EVER WONDER

WHAT IS GOING ON?

WHAT IS HAPPENING IN OTHER CENTERS, IN OTHER CITIES
AND OTHER STATES?

Ever wonder where can you find current trends in litigation and regulatory citations? We are here to help with that! This program was designed and developed for you, the provider, to learn what is happening from a liability and regulatory perspective in all levels of post-acute care!

Whether you are experiencing an acuity creep on your assisted living campus or an increase in negative outcomes in your skilled rehab center, this program is what you need!

Let us walk you through case scenarios of actual events and discuss opportunities to assist in preventing repeat events in other centers with the goal of providing the highest level of care to each and every resident.

Things happen and sometimes they aren't pretty so we will also discuss best practices for addressing these situations in an effort to avoid costly litigation and regulatory citations.

OBJECTIVES:

- Identify trends in post-acute litigation
- Discuss acuity creep
- Discuss the concept of matching residents needs with provider capabilities
- Define scope of service related to staffing
